

Introduction to Theoretical Statistics II
STA 6327 (7292)
Spring 2009

Instructor:

J. P. Hobert
221 Griffin Floyd Hall
273-2990

Class: MWF 8:30-9:20am, Little Hall 219

Office Hours: MWF 10:30-11:30am or by appointment

Course Web Page: <http://web.stat.ufl.edu/~jhobert/sta6327.html>

Text:

2nd edition of *Statistical Inference* by Casella and Berger. (We will finish Chapter 5 and try to get into Chapter 10.)

Homework:

Homework is worth 10% of the final grade. No late homework will be accepted.

Exams:

Three exams will each count for 30% of the final grade. The first two exams are tentatively scheduled for 5:30-7:00pm on February 12th and March 26th. The final exam is scheduled for Wednesday, April 29th from 12:30-2:30pm, in Little Hall 219. No make-up exams will be given.

Grading:

The usual 10 point scale (90% for an **A**, 80% for a **B**, ...) is tentatively adopted, but will most likely be loosened.

Help Sessions:

The TA for the course is Trung Ha. During weeks in which there is an exam or a homework due, Trung will hold a help session on Wednesday in Griffin-Floyd 230 from 5:00-6:00pm. In the remaining weeks, Trung will have regular office hours in 209 Griffin-Floyd Hall on Tuesday and Thursday from 11:45 to 12:35pm.

Policies:

Students are responsible for **all** material covered in class. If you are absent, make arrangements with a classmate to borrow the notes and any handouts from them. Handouts will be distributed **once and only once**.

We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.
